- Consulting for members of design and UI teams to provide technical insight into upcoming projects.

New York, NY. Contact Krystyna Bloch (krystyna.bloch@rga.com) at +1-212-609-8286.

Qualifications

Expertise with Web Technologies. I build webpages with semantic HTML structures, CSS3 styles that can fall back to reasonable defaults for old browsers, and elegant Javascript (with jQuery) for interactivity. I also know PHP, SQL, XSL, and ActionScript.

Proficiency in Graphic and Multimedia Software. I am skilled with Adobe Photoshop, Illustrator, Flash, Dreamweaver, InDesign, Flash Media Encoder, Apple Final Cut, and Microsoft Office.

Web and Graphic Design Experience. See my portfolio at <http://portfolio.jaye.com> for detailed descriptions of past projects, including full-featured websites and CMS applications, logo and marketing design, and Flash programming.

Strong Design Values. Working as a developer at designer-heavy interactive agencies has taught me the value of clearly-expressed concepts, forged an obsession with detail-oriented execution, and given me practice in building things quickly and intelligently.
